

FABRIC PROTECTOR

LEATHER & VINYL PROTECTOR

- Resin-based water based
- Protects from coffee, rain, other similar liquids
- Allows for easy clean up and solid soils can be vacuumed away or wiped off with a gentle cleaning solution
- Fabric retains its natural texture and appearance

- Protects vinyl surfaces from moisture, stains and spills

## Paint Sealant

An amino-functional polymer – copolymer resin with an ultra violet ray blocker and anti-corrosive agent. Over eight million vehicles treated.

## Benefits

ValuGard Paint Sealant provides a durable high gloss shine that sheets or “plates” moisture from the painted surfaces of the vehicle to help prevent environmental damage. Reduce the surface tension of the paint to lessen the bond of dirt and pollution. Protect against fading, oxidation and loss of gloss.

*and endorsed by 10 of the 15 largest automobile manufacturers.*
